EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Peter A. McKenna on March 30, 2006.

The application has been amended as follows:

In claim 2, lines 6-7, the phrase "on a screen" has been changed to "on the screen" to place this application in condition for allowance.

2. The following is an examiner's statement of reasons for allowance:

Applicant's arguments, see Appeal Brief, filed January 20, 2006, with respect to claims 2-9 have been fully considered and are persuasive. It is agreed that the applied references fail to teach the claimed limitations "a display apparatus which includes a memory, where an own cursor display data is stored, a unit that outputs existence information of the own cursor display data, and the OSD source for receiving and storing the existence information of said own cursor display data, and transmitting the cursor display location information on the screen of said display apparatus to said display apparatus if the cursor display command is received from said OSD source remote controller".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
